SEWING MACHINES

THE IMPROVEMENTS MADE ON THE

"Wilson" during the year 1871 have placed it at the head of all competition, and to day it is without a rival. It is as durable as steel and from can make it. Every Machine of the late case-handers of years is served to city subsortable of the late case-handers of years in the late improved in shape so ato have out represents the late improved Machine, which rests flat with the table and runs light and rapidly, and makes the shuttle or lock stileh, use straight needle, and the celebrated undersers improved in shape so ato have a portion of the feed ye hoth sides of the needle. Remember the Fact,

that high prices (on sewing machines) do not indicate superiority. The combination, the ring, and the monopoly, all agree on high prices, which they, sooner or later, will be forced to reduce on account of the unpresedented rapid and increasing sales of the NEW WILSON SEWING MACHINE. Please call and examine even if you do not wish to purchase.

Well, what came next? Let me see—
Oh! Fanny was there with a beby,
And we all sat down to tea;
Ani grandma looked over her glasses
So queer at Richard and me. But it wasn't till after milking

That he said what he had to say.

How was it? Oh, Fanny had taken

The baby and was gone away—
The funniest regue of a fellow—
He had a new tooth that day.

We were standing under the plum tree.
And Richard said something low.
But I was tired and fluttered.
And trambled, I almost know;
For old Red is the hardest of milkers.
